

Research Colloquium 2020

22-23 January 2020

The John McIntyre Centre, University of Edinburgh EH16 5AY

Join us for the first EBNet Research Colloquium to hear from top speakers in advance of our first BIV/POC funding calls.

Conference themes:

- **Biosciences to Engineering** - to develop and improve technology for pollution control, resource recovery and bioenergy generation
- **Pollutants and Media** - covering both traditional and emerging pollutants
- **Technology Interfaces** - for process integration, techno-economic and sustainability assessment

Speakers include: Prof Peter Golyshin, Bangor University; Prof James Chong, University of York; Prof Steven Yearley, University of Edinburgh and more...

Register [here](http://bit.ly/2PUgw4H) or at <http://bit.ly/2PUgw4H>

Dinner: 22 Jan, 19.30 hrs

Conference: 23 Jan 09:00-16:00

Event and dinner are free-to-members.
Bursaries will be available for ECR members.

Contact EBNet@EBNet.ac.uk for details or to volunteer a FLASH presentation/poster.

*EBNet brings together
natural and social scientists and engineers
to move discovery science towards practical application
in creating and optimising engineered microbial systems
for environmental protection, bioremediation
and resource recovery*
